

*Nothing is more precious in this Universe than,
Truth and Love joined in wisdom.*

*Our True Love is all that matters, my dear,
It's being together and becoming as one.
Living a journey that will never end,
And you and I simply holding each other's hand.
I love you and you love me is what matters.
There is nothing greater or more beautiful than we,
Katherine the math is so simple
You plus me equals eternity.
You and I am, but, We are.
Take my hand and we will see
Together our destiny,
Eternal love,
Is Us*
